Lab Activity 5

Using your book, the use of the Internet, common sense, and any other resource you have to provide a short description of the following terms in a Microsoft Word document. When you’re finished, submit your paper to the specific learning unit.

1. Applet
2. Boolean
3. data type
4. function
5. global scope
6. local scope
7. method
8. object
9. parameter
10. variable
