Discussion Posts

Write two original posts for the Discussion Board.

1. Write a question about any of the essays you are reading for this essay. What did you find confusing or unclear? Include page numbers and the name(s) of the authors.
2. Write about a similar idea that is discussed by two or more authors. What is similar about their discussions of this idea? What is different about their discussions of this idea? What does their agreement/disagreement seem to indicate?

Answer (or respond to) at least two of your peers’ posts.

1. Answer, to the best of your ability, the question posted by your peer.
2. Indicate whether or not you would agree with the connection identified by your peer. Explain your answer.
