Lab Exercise 7 – Part II
AHIMA Ethics Self-Assessment

For the second half of the assignment, you will need to go to the Ethics Self-Assessment on the Code of Ethics page of AHIMA’s website. The Ethics Self-Assessment tool was developed by AHIMA to assist its members in identifying strengths and weakness regarding ethical dilemmas. Take the time to complete the assessment and submit a one (1) page paper summarizing your findings.

Please make sure to follow the required paper format requirements. A one-page typed document of 400 to 500 words, single spaced, and no larger than 12-point font. Include your name, course name, course number and section number, and date of paper submission in the top right hand corner of the page.
