Lab Exercise 8
Attributes of a Professional

For this lab you will write a one page paper entitled “Attributes of a Professional.”

Who comes to your mind when you think of someone who is a professional? What skills do they possess? Are these skills they are born with, or have they been acquired over the years? There are several key words that help define someone who is a professional.

I have listed five (5) key words that I would like for you to define in your one-page paper.

These five (5) key words are:

- Attitude
- Character
- Competency
- Excellence
- Professional Conduct

Please make sure to follow the required paper format requirements. A one-page typed document of 400 to 500 words, single spaced, and no larger than 12-point font. Include your name, course name, course number and section number, and date of paper submission in the top right hand corner of the page.
