Study Questions

Your answers to these questions are to be submitted to the appropriate area provided. All of the following questions are found in Chapter 7 (“Left Behind”) of *What Believers Don’t Have to Believe*.

1. I mentioned the Futurist position of belief in the pre-Tribulation Rapture of the Church, the Great Tribulation, the Antichrist, the Second Coming, the Millennial Reign of Christ, and the Final Judgment. This position is very popular here in America, especially considering the success of the *Left Behind* series of books. How much of this have you heard before? In what ways have you heard this (i.e., church teachings, television, movies, reading, etc.)?

2. If a minister holds a different view than you do on biblical prophecy, would you trust that minister on other topics? Why or why not?

3. What did you think of the portrayed discussion between the Futurist and the Preterist? Did you think it was fair to both parties? What about the arguments given for both sides of the debate?

4. If you do not hold any specific position on biblical prophecy, do you think the discussion helped your understanding? Did it *not* help? Why or why not?
