Horoscope Assignment

Each person should read his or her horoscope from two sources (example: website and newspaper). This exercise asks you to critically evaluate (judge) the two. Please answer the following questions.

1. Which of your two horoscopes seems more accurate? Why? If you do not think either one is accurate, explain: why not. What are the differences between the two horoscopes? How do these differences lead you to evaluate these two different sources of information?

2. What is your final position, pro or con, regarding the validity of astrology? Give three reasons that support your evaluation (judgment) of astrology. What do you believe, and WHY?

When you have completed this assignment, upload the document to the specific location in MyHills.
