Course Introduction

Speakers: Noël Foster Gorden and Sheri Ziegler

Noël Gorden: Welcome to class! This is SDV 142 Career Planning, and we hope you will find it enjoyable. Most students do. Why? Because it’s all about YOU! The activities and assessments have been designed to help YOU identify YOUR values, strengths, and skills.

Sheri Ziegler: Did you know, some people spend more time researching their cell phone plan than they do researching a career choice. By enrolling in this course, you have taken the first step in putting yourself ahead in the career game.

Noël Gorden: People over the age of 80 were interviewed about their careers for a TV show. Many of these people said if they were given a do-over; they would spend more time researching career options. This course will give you that opportunity.

Sheri Ziegler: If you already have some career ideas, great! This course will give you the tools necessary to make an informed decision regarding your career choices. We want you to have a career that makes you think, “Wow, I even get paid to do this!”
