Journal Instructions

**Directions:** Take the quiz “Is Online Learning Right For You?” and respond to the questions for reflection. As the video’s introduction says, there are no “right” or “wrong” answers. Your grade will reflect the quality of your responses to the questions.

**For reflection:** Summarize your quiz results. For questions receiving the feedback responses “Attention may be needed” or “Online may not be for you,” what adjustments will you make to promote your success in this course? Overall, what did you learn about online learning—and about yourself—by taking this quiz?
