

Logging into MY HILLS

Go to the Indian Hills website: www.indianhills.edu and click on the head & shoulder icon on the top left-hand side of the page.

Life. Changing.

Your student username, or “User ID,” is usually in the following format: `firstname_lastname`. For example, the student Janet Learner’s username would be “`janet_learner`.”

A screenshot of the MyHills login page. It features the 'MyHills' logo and 'Indian Hills Community College' text. Below is a form with 'USERNAME:' and 'PASSWORD:' labels, each followed by a text input field. A red 'Login' button is positioned below the password field. At the bottom, there are links for 'Login Help | MyHills Tutorials'.

If this is your first time accessing MY HILLS, then **your default password** is your student ID# followed by Az (capital “A” and lowercase “z”). For example, if someone’s seven-digit student ID# is 0123456, then their default password would be: 0123456Az

If you don’t know your 7-digit Student ID#, you can find that in Dual Enroll under the ACADEMICS tab!!

Once in MY HILLS, you will find your class(es) listed at the right of the page; click on the course to open the links to your “Syllabus & Schedule” and your “Learning Units” in the blue menu on the left-hand of the page.

The Syllabus and Schedule will give you your instructor’s information and a roadmap to your course!

Learning Units are where you will find your Assignments!
